

# ***With You Wednesday***

**Mid-week Connection—July 22, 2020**

*We celebrate the lives of every church family,  
all friends, and members of FPC Statesboro.*

## **Way To Go!**

**The Onyile family** had another milestone last month. Onoyom, their last son, graduated from Rutgers School of Dental Medicine at Rutgers University. The following is from the dental school blog.

Onoyom Onyile will be starting a residency in RSDM's Department of Pediatric Dentistry in the fall. As a former teacher, he has experience working with special needs children. Onyile completed his undergraduate education at Rutgers New Brunswick and also earned his masters at RU...

Here's another kind of **SUCCESS!**

Following a visit to North Carolina, **Brett Curry** and his brother flew to South Dakota to enjoy what appears to be a very successful fishing trip with his other brother and Dad.

**Marti Schriver** has been spending some of her time taking photos outside.

**George Chappell** says that he and **Judy** have not done much this spring and early summer. They have enjoyed a few lunches out and swapping patio visits with friends. However, they have shown their garden lots of love, and the plants and flowers are flourishing. It is easy to see that the Chappells have green thumbs and time on their patio would be quite pleasant! George continues to play golf at GSU after it opened in early June.

**Brady and Julia Basquin** enjoy windsurfing!

The **Haymons Family** have been enjoying spending some time at the coast!!!

**Robin and Sarah Dixon** have canned home-grown beans and freshly-picked peaches.

What's happening at your place? Simply send pictures and captions to:  
office@fpcstatesboro.org **THANKS! WE LOVE SEEING YOU!**
